**Finished:** 29 motorcycles, 32 souls on board

## **10 DNFs:**

- (2) classic BMW failures
- (1) CG event virgin: fuel state mismanagement
- (2) non-specific Canadian confusion
- (1) stalled offroad; fried clutch
- (1) failed minimum mileage by 3 miles (!)
- (1) deer-strike
- (2) retired

Well, well over 50,000 miles traveled, and that's just the finishers.

Single Vehicle (non-animal) Underway Mishaps: 0

Record-setting number of small animal kills. They primarily consisted of classic Nevada kamikaze rabbits, coyotes/foxes/prairie dogs, and various airborne kills. One deer mishap, but the deer lived, so the rider shamefully retired.

One tough veteran Cognoscente riders had his bike's wheels pointed to the sky at one point after midnight – he still finished the event in the Top 10.

14 of 39 Starting bikes were Cognoscente virgins. 4 finished in the Top 10, and one on the podium in 2<sup>nd</sup> Place.

Record-setting scores set by shooters at Odometer Course 2-Gun Competition.
